«Sustainable Real Estate Projects Switzerland»

J. Safra Sarasin

Information

Investment Foundation 1291 invests in real estate throughout Switzerland. In addition to residential properties, properties with other uses such as office, retail, commercial and logistics are also acquired. With a "develop and hold" investment strategy in sustainable real estate projects, the investment group aims for a long-term portfolio with a residential share of at least 60%. The portfolio currently includes two projects directly at the respective railway stations in Wil (SG) and Effretikon (ZH).

Investor Update as of 31.03.2026

The «Roots» project at Bahnhofstrasse 28 in Effretikon is currently in the implementation phase. The design plan was approved on 16 June 2025 and has been legally binding since 16 July 2025. The disposal of contaminated building materials and demolition have been proceeding in parallel since 1 September 2025. The building permit for the structure is expected in the second quarter of 2026. Preparatory work for the structure began in the fourth quarter of 2025. Completion is scheduled for the first quarter of 2029. A lease agreement has already been signed with an anchor tenant; further discussions with potential tenants are underway.

The successful completion of the «Perronimo» project at Untere Bahnhofstrasse 1–11 in Wil in the first quarter of 2026 marked a significant milestone. While the restaurant and office spaces in the front building and the 32 senior apartments in the main building had already been leased ahead of schedule, all remaining apartments, as well as additional spaces for companies in the healthcare sector and a fitness center, have since been leased. Since a letter of intent (LOI) has already been signed for the last available commercial space, the project is concluding with virtually 100% occupancy. This project completion confirms the high quality of the location and serves as strong evidence of the investment group's sustainable portfolio strategy.
